Re: Ivy Tech Columbus Practical Nursing Program Admission Change

This letter is to inform you and your department that due to a low number of applicants for the Practical Nursing Program for January (Spring) starting dates over the past two years, we have decided to admit only one Practical Nursing program cohort of up to 40 students, which will start each August. The application deadline for August start remains April 1 at 4 pm according to the statewide nursing application policy. The Practical Nursing program will remain a three semester program. The last January Practical Nursing cohort was admitted January 11, 2010.

Please share this information with faculty, staff, and students. Let me know if you have any questions or concerns.

Thank you,

Susan J. Waltz, RN DNP

Nursing Department Chair, Professor

Ivy Tech Community College, Columbus campus
